It includes general information, health education, non-directive treatment options and questions to ask your doctor.

KGA Assist will provide ■ Advice and information regarding any emergency medical condition by phone so that emergency assistance can be provided immediately to someone who's ill or injured until

medical help arrives.

- Immediate response to the scene of a medical emergency. Where necessary the member will be stabilised before being

transported to the closest appropriate medical facility. ■ Guaranteed hospital admission.

\* Terms and conditions apply.
